anagha.namasevi@gmail.com

Architect with over 3 years of experience in managing comprehensive projects including Interiors, Landscape and architecture, leveraging advanced skills to enhance design efficiency and compliance. Demonstrates a visionary approach in leading cross-functional teams, significantly increasing client satisfaction and business profitability through innovative solutions and effective mentorship. Eager to contribute my skills and capabilities to the organisatio.

Education

Savitribai Phule Pune University, Pune, India, Jun 2016 - Jul 2021
Bachelor of Architecture (B.Arch)

Employment history

Associate Design Lead

Alive Design Studio
Jul 2021 - Mar 2024
Pune, India

- Managed the full lifecycle of architectural projects, overseeing design development, documentation, and adherence to schedule and budget constraints.
- Drove a 30% increase in business profitability by optimizing design workflows and implementing innovative strategies to enhance project efficiency.
- Engineered constructible architectural designs by coordinating and integrating structural, and specialist consultant requirements.
- Managed compliance checks throughout the design process, guaranteeing adherence to relevant building codes, regulations, and quality benchmarks.
- Led cross-functional collaboration between internal teams, external consultants (engineering, etc.), and clients to resolve technical challenges and optimize project workflows.
- Increased client satisfaction by 45% and secured repeat business through proactive communication, transparent reporting, and effective expectation management.
- Enhanced team capabilities by mentoring junior designers on firm standards, project workflows, and advanced software usage.

Internships

Student Intern (Full Time)

AVI Designs, Pune
Jun 2020 - Nov 2020
Pune,India

- Contributed to project phases by developing technical drafts (AutoCAD) and 3D models (SketchUp) used for design visualization and documentation.
- Prepared and organized essential project documentation and presentation materials, supporting communication between team members and stakeholders.
- Applied industry-standard software (AutoCAD, SketchUp) while learning foundational project coordination techniques within an architectural practice.
- Organized and maintained project files and documentation, contributing to efficient information management for the design team.

Part-time Student Intern

Design9 -Interiors and Consultation
Dec 2019 - Mar 2020
Pune,India

- Generated 3D models (SketchUp) aiding design communication for client presentations and internal development.
- Drafted technical details (AutoCAD) and prepared documentation packages supporting project execution.
- Researched construction materials and methods, contributing data for project specifications.
- Participated in project meetings, contributing ideas and maintaining records of key decisions.
- Assisted with material selection verification and supported on-site coordination during construction phases.
